RE: Elevator Safety at Boston Housing Authority (BHA) Developments

Dear Commissioner Marshall, Chief Hooley, and Commissioner Cox:

I'm writing today to seek clarity on the protocol for our first responders, including police officers, firefighters, and EMTs, in the event of an emergency at Boston Housing Authority (BHA) developments that may potentially coincide during an elevator failure.

Over the last two years, residents in BHA developments across the city have endured repeated elevator failures that have left them trapped in their apartments, forced to miss medical appointments, unable to access groceries, and cut off from their families and daily life. Most recently, a resident, a double amputee, disabled veteran, was not able to get into his apartment to get his medication as a result of a 22-hour elevator failure. Consequently, he was forced to sleep outside of South Station overnight because BHA did not provide him with a hotel voucher to stay while he could not access his apartment. Since this troubling incident, and on account several years of similar occurrences that led to the Massachusetts Architectural Access Board to issue a rare fine of $363,000 (reduced to 1%, or $3,630), I have since called for an investigation into BHA elevator failures and plan to schedule a hearing in the coming months.

With the safety of both our dedicated first responders and public housing neighbors in mind, I am respectfully requesting that you please provide your protocol in the event of an emergency at a BHA development during an elevator breakdown. I'm concerned that if a resident is having a medical emergency, such as a heart attack, there may be issues transporting a gurney and other medical equipment to that person's apartment. This is a civil rights and public safety issue. Disability rights are civil rights!

Summary of Legislation

Dockets #0741-0754 are authorizations of revolving fund limits for FY27. Annual authorization of the dollar-limit for each of these revolving funds is required by their enabling legislation, Section 53E½, Chapter 44, Massachusetts General Laws. Revolving funds are an important budgetary tool for departments, as they allow for better financial flexibility in the management of unpredictable and self-sustaining activities. The Committee on Ways and Means has formalized and standardized the review process for these funds by running reviews concurrent with the annual budget review process and departmental budget hearings, with the intent to maintain transparency and accountability in the annual review and authorization of these funds.

Dockets #0746 and #0754 are new revolving funds being authorized for the first time in FY27.

Docket #0746 allows the City to create a revolving fund to incur liabilities against and spend monies consistent with the BERDO ordinance. It will be funded by receipts from the Alternative Compliance Payments (ACPs). ACPs are an approved emissions mitigation pathway that consists of payments equal to the average cost per metric ton of CO2 to decarbonize buildings. The Environment Department will be the only department authorized to expend from the fund and such expenditures shall be capped at $1,500,000.

Docket #0754 allows the City to create a revolving fund to support the establishment and operation of the bikeshare program within the City of Boston. It shall be funded by system-generated user revenues, sponsorship revenues, and advertising revenues. The Transportation Department will be the only department authorized to expend from the fund and such expenditures shall be capped at $1,400,000.

Information Received at Hearings

These funds are sources of additional funding for departments, as such the Committee heard dockets together with the relevant departments' budgets. For revolving funds, standardized reporting information consisting of a summary of each revolving fund and the fund's previous year's revenue and expenditures was shared with the Committee for review.

Committee Chair Recommended Action

As Chair of the Committee on Ways and Means, I recommend moving the listed dockets from the Committee to the full Council for discussion and formal action. At that time, my recommendation to the full Council will be that these matters **OUGHT TO PASS.**

April 6, 2026

TO THE BOSTON CITY COUNCIL

Dear Councilors:

I transmit herewith my Fiscal Year 2027 (FY27) Recommended Budget for the City of Boston. The $4.9 billion FY27 Annual Operating Budget and $4.4 billion five-year FY27-31 Capital Plan reflect a deliberate and disciplined approach to protecting the services our residents and businesses rely on while investing in the long-term strength and stability of our City.

Across the Commonwealth and the country, cities and towns face a challenging fiscal environment marked by rising costs, slowing revenue growth, economic uncertainty, and inflationary pressure. Boston is navigating these conditions within the constraints of the Commonwealth's rigid limitations on municipal revenue generation and diversification, including Proposition 2 ½.

This is a difficult moment—but Boston meets it from a position of durability and determination. More than a decade of triple-A bond ratings, disciplined financial stewardship, and strong reserves have positioned the City to weather this environment. Because of the work we have done together over the past several years, the City approaches this moment from a place of stability.

We are grateful to Chair Weber for convening multiple Ways and Means Committee hearings that gave our administration an opportunity to share important information about this challenging budgetary environment and hear directly from Councilors about their priorities. This collaboration demonstrates the kind of partnership necessary to steer Boston through uncertain economic times.

This recommended budget and capital plan protects our progress, prepares us for the future, and reaffirms Boston as a national leader in quality of life, opportunity, and innovation. Every decision has been guided by a clear principle: protecting the core services that residents rely on most while positioning Boston for a brighter future and long-term success.

The five-year capital plan serves as a roadmap for the long-term resilience of our City. It invests in maintaining and improving school buildings, parks, libraries, transportation networks, community centers, and other critical infrastructure that will boost quality of life across every neighborhood and foster economic growth. These investments underscore our dedication to protecting Boston's fiscal health and building the future our families deserve.

The recommended operating budget funds key priorities, provides significant savings, and positions Boston for steady progress despite economic headwinds. It holds growth to 2 percent—the lowest rate since FY10 and well below the current rate of inflation. This limited growth has required tough choices, including targeted reductions.

Over the past four years, federal relief funding and city investments enabled Boston to increase support for small businesses and nonprofit partners, fill vacant storefronts, expand cultural programming across our neighborhoods, and much more.

However, due to tighter fiscal conditions and rising fixed costs, and guided by our goal to protect the core services our residents rely on most, the FY27 recommended operating budget reduces or removes funding for many of these discretionary grant programs. Wherever possible, we have preserved other City programs that provide similar services or leveraged public-private partnerships to help bridge potential gaps in services.

At the same time, strategic financial management has helped us avoid deeper, more disruptive cuts to essential services and operations while keeping us on track to meet our debt obligations and unfunded pension liability by 2028. By managing long-term pension and debt liabilities, the City will save $37.8 million compared to FY26. Additionally, in partnership with our unions, we reached an agreement with the Public Employee Committee (PEC) to curb growing health care costs, generating an estimated $10.6 million in savings for the City and its employees through utilization management.

Even with these efforts, rapidly rising health care costs continue to pose a major challenge. Health insurance costs for the City, Boston Public Schools (BPS), and Boston Public Health Commission (BPHC) are projected to increase by $97.3 million this year, driven by a 20.3 percent rate hike for all non-Medicare health plans that far exceeds the average annual rise of $10.6 million over the past eight years. These escalating fixed cost pressures, combined with contractual obligations and inflation, continue to significantly outpace the revenue growth allowed under Proposition 2 ½.

In response, we have taken deliberate action to manage expenditures and constrain overall cost growth in the recommended operating budget. Total expenditures will increase by only 2.1 percent; however, when health insurance and other central accounts are separated out, departmental appropriations decrease by 1.3 percent compared to FY26. We have also implemented strict spending controls and limited new programming.

Finally, unlike many other Massachusetts communities, this budget does not seek an override for additional revenue beyond what is allowed by Proposition 2 ½.

Boston has always been a beacon of progress for the nation—setting the standard for public safety, education, innovation, and economic growth. This operating budget and capital plan are grounded in those priorities and backed by careful financial stewardship. Our budget is designed to make sure the City overcomes this fiscal moment and emerges from it stronger.

The FY27 recommended budget builds in cost containment strategies to address key drivers of deficit in the prior fiscal year:

Health insurance costs
As mentioned above, working with our municipal labor partners through a negotiated PEC agreement to implement utilization management will deliver an estimated $10.6 million in savings for the City and employees. Utilization management, an industry-standard cost containment tool, ensures that prescription drugs are only prescribed when clinically appropriate. In the next month, the administration will begin negotiations with all municipal unions on healthcare costs through the PEC, looking to set a new five-year health insurance plan that must take steps to address the unsustainable growth of costs that the City has faced.

Public Safety Overtime
As we informed the Council last week, public safety overtime spending remains a long-term challenge. Over the past four years, the administration has implemented operational changes to reduce the number of overtime hours. The police overtime line item, for example, has increased with collective bargaining agreements adjusting wage per overtime hour, but the number of hours has decreased and continues to move in the right direction as new classes and management initiatives have begun to reduce the use of mandatory overtime to cover staffing shortages. We will continue working to make public safety overtime spending more predictable and manageable, while maintaining the safety of our neighborhoods as our top priority.

Snow Removal
In five of the six fiscal years prior to FY25, the City underspent the budgeted snow removal line, resulting in surplus that accumulated in the general fund and contributed to the City's reserve balances. Historically significant snowfall in early 2026 resulted in a deficit in the snow removal budget line, which is an appropriate one-time cost to be addressed through an allocation from reserves accumulated over the last several years. As New England's weather patterns shift to less frequent but more intense snowstorms, this same pattern of uneven snow costs will likely persist. While this year's line item for snow removal represents level funding from the FY26 budget, not relying on additional use of reserves to balance the overall FY27 budget ensures that the City is able to maintain flexibility to utilize reserves in a future year to address extraordinary, unforeseen costs like those we experienced this winter. Further, we will explore the possibility of creating a special snow stabilization fund to specifically address snow shortfalls in the future.

The FY27 recommended budget includes the following key priorities:

Housing Affordability and Stability
Housing affordability and stability remain a core priority for our administration. This proposed budget maintains our full range of tools to preserve and strengthen housing stability and affordability across the city. Over the last four years, these tools helped us build 6,210 new income-restricted units—the highest number of affordable housing units created during any comparable period in the last 25 years. And the Acquisition Opportunity Program reached its goal of taking 1,000 units off the speculative market years ahead of schedule. In FY27, we will protect one hundred families through the Acquisition Opportunity Program, stabilizing over 200 residents.

While the Mayor's Office of Housing (MOH) is seeing an overall decrease in the proposed FY27 budget, funding for bedrock programs has been maintained, including homeownership assistance, supportive housing, tenant stabilization, and housing vouchers.

Earlier this year, we celebrated the completion of the multi-year redevelopment that created hundreds of mixed-income rental units across the Whittier Street Apartments site in Roxbury. In Charlestown, the Boston Housing Authority is beginning construction on a 266-unit mixed-income building—the first publicly-owned mixed-income development in the City.

The Office of Housing will also use federal and state funds, the Boston Acquisition Fund, and locally-generated revenues from the Housing Trust Fund, Inclusionary Development Policy (IDP), and the Community Preservation Act (CPA) to keep building and preserving affordable housing in Boston.

Youth Employment and Development
Summer youth employment remains a cornerstone of our administration's focus on Boston's future. Nearly 11,000 students and young adults worked jobs each of the past two summers— the most in Boston's history. This budget maintains our guarantee that every BPS student has access to a paid summer job.

Additionally, several programs focused on youth development and career readiness previously managed within the Office of Youth Employment and Opportunity (OYEO) have been moved to other cabinets to create a more diverse, stable funding structure, including partnering with the state and private sector.

Public Realm and Quality of Life
Over the four past years, we have resurfaced 105 miles of roadway, filled over 27,000 potholes and nearly doubled the City's network of bike lanes. Next year, we will build on this progress by continuing to invest in maintaining and improving Boston's streets. Planned efforts include roadway resurfacing, sidewalk and ramp upgrades, street reconstruction, and neighborhood safety projects designed to enhance mobility for all users.

The Streets Cabinet will see a modest budget increase in FY27, primarily due to the cost of existing long-term contracts that support essential services, such as managing the City's mobility infrastructure, collecting residential trash, and maintaining the cleanliness of our public ways.

Additionally, several major projects are underway to promote safer, more resilient streets and enhance quality of life across our neighborhoods. Construction is in progress on A Street, Congress Street, and Sleeper Street, which will feature new, accessible sidewalks, safer crosswalks, street-light upgrades, landscaping, and separated bike lanes. In Mattapan, reconstruction of Cummins Highway is underway and expected to be completed this summer.

We have also continued to invest in Boston's parks, cutting the ribbon on renovations at Harambee Park, Walsh Playground, and Codman Square Park and are nearing completion of improvements to Copley Square and Clifford Park.

Public Health and Safety
To maintain Boston's status as the safest major city in the country, the FY27 budgets for Police, Fire, and EMS include funding for recruit classes that will replace staff loss from normal attrition. Our cadet programs will also remain steady pipelines for our public safety departments. Although we have made targeted reductions to civilian positions in these departments, we will be able to maintain service levels across these critical agencies thanks to your partnership on key investments over the last few years. These include a capital investment of $3.3 million to upgrade the computer-aided dispatch (CAD) system, improving 911 call-takers' ability to quickly and securely receive and dispatch calls.

Funding has also been preserved for alternative response capacity, including programming with *BEST* clinicians and our partners at *Youth Connect* to address the underlying trauma, mental health issues, or family instability that often lead to police intervention. The Community Safety team will fully move from the Office of Human Services to the Boston Public Health Commission (BPHC) in FY27, reflecting the administration's public health-centered approach to addressing community violence.

Human Services
The Human Services budget maintains evening and weekend hours and programming at libraries and BCYF centers, as well as classes for adult English-language available at no cost to residents through the Boston Public Library.

While Age Strong is seeing a decrease in FY27, the City was able to secure a $1 million federal earmark for transportation services that will help older residents get around more easily across Boston. City funding that helps older residents access state and federal benefits is maintained.

Boston VETS will continue to provide need-based financial aid to low-income veterans and their surviving spouses for food, shelter, clothing, medical reimbursements, and emergency aid for utilities and home repairs.

The City is nearing completion of the new BCYF community center in Grove Hall and recently broke ground on a new Nazzaro Community Center in the North End. In Chinatown, we broke ground on a project that will bring 110 affordable homes and a new permanent branch of the Boston Public Library to the neighborhood, turning a City-owned parking lot into a community anchor. The City is also planning for additional community facilities.

Education and School Facilities
The FY27 Boston Public Schools budget maintains our multi-year investments in the core academic priorities that improve student outcomes: inclusive education, bilingual programming, high-quality instructional materials, and expanded college and career pathways.

To continue these investments amid declining student enrollment and rising costs, BPS has made difficult decisions to align staffing levels with a smaller student body. In aligning staff with students, BPS is maintaining a ratio of 1 teacher for every 10 students and 1 paraprofessional for every 24 students. These are lower staff-to-student ratios than pre-pandemic, and equal to the staffing ratios in the FY26 budget. While these reductions in staff positions are difficult for school communities, they are essential to the responsible stewardship of public dollars. The BPS FY27 appropriation of $1.7 billion reflects a year-over-year increase of 5.4 percent, or $88

million. After isolating the disproportionate impact of health care inflation, the underlying budget growth is 2.7 percent or $41 million.

We have launched more school facility renovations and construction projects than at any time in the last 40 years, while expanding access to high-quality pre-K seats and early college access than ever before. Over the last year, we have cut the ribbon on major projects at the PJ Kennedy Elementary School in East Boston, the William E. Carter School in the South End, and the Sarah Roberts Elementary School in Roslindale.

Through our partnership with the Massachusetts State Building Authority (MSBA), we are moving forward with the Madison Park Technical Vocational High School project. This investment will deliver a nation-leading, wall-to-wall Career and Technical Education high school and hub of workforce development in the heart of Roxbury. We are also partnering with the MSBA on investments in the Ruth Batson Academy in Dorchester and the Shaw-Taylor Elementary School in Mattapan, which will begin design this year. At the same time, renovations are underway at the Lilla G. Frederick building in Grove Hall, which will reopen as a new elementary school this fall. We are also developing plans to renovate the auditorium and other interior spaces at Brighton High School.

Across the district, we are accelerating state-of-good-repair improvements, upgrading bathrooms, roofs, windows, and doors; enhancing energy efficiency, and improving playgrounds. And next year, we will complete the renovation of White Stadium, transforming it into a state-of-the-art athletic facility for BPS Athletics and a year-round, vibrant community hub for Franklin Park.

I look forward to your partnership in this budget process and beyond. Our administration will continue to carefully monitor the economic landscape and, if needed, adapt this budget. I respectfully request your favorable action on the FY27 Annual Operating Budget and the FY27-FY31 Capital Plan.

Sincerely,

Michelle Wu

BOSTON CITY COUNCIL

Committee on Ways and Means
Benjamin J. Weber, Chair

One City Hall Square 5th Floor, Boston, MA 02201 ◊ Phone: (617) 635-3040 ◊ city.council@boston.gov

REPORT OF COMMITTEE CHAIR

June 10, 2026

Dear Councilors:

The Committee on Ways and Means was referred the following docket for consideration:

Docket #0733, message and order for annual appropriation and tax order for FY2027.

This matter was sponsored by Mayor Michelle Wu and was referred to the Committee on April 8, 2026.

The Committee has conducted a robust review process, including 31 public hearings on departmental budgets and associated capital budgets, 2 dedicated public testimony sessions, 6 working sessions, and has received written testimony from all City departments, as well as written, oral, and recorded testimony from the public. Prior to the FY27 budget process, the Committee held 5 hearings, 1 committee meeting, 2 dedicated public testimony sessions, and 1 working session to collate the Council's FY27 budget priorities, to collate the Council's departmental Requests for Information (RFI), and to discuss forecasted revenues and expenditures for the FY27 budget.

City Council Proposed Amendments
In 2021, the City Council passed, and City of Boston residents voted to approve, a change to the City Charter that would grant the City Council additional budgetary authority. Whereas the previous authority granted the Council only the ability to accept, reject, or reduce as a whole, following the Charter amendment, the City Council can now amend line items within the Mayor's operating budget appropriation order (for FY27, Docket #0733), with the caveat that the Council's amended version cannot be for a higher total budget than originally proposed. Within seven days of the Council's action, the Mayor is required to approve or return the Council's amended version, provided that the Council may by a two-thirds vote override any of the Mayor's modifications, in whole or in part, prior to the start of the new fiscal year.

The Council's proposed amendments to Docket #0733 fall in two categories - inter-departmental and recommendations, as follows:

- Inter-departmental amendments: $7,640,000
- Recommendation amendments: $1,155,000

Inter-departmental amendments involve the movement of funds from one department to another. They are reflected in shifts on the tax order. Recommendation amendments involve the movement of funds within a category within a department. They are not reflected in shifts on the tax order.

Summary

Over the course of its deliberations, the Committee identified a number of key Council priorities for the restoration of significant funding, including city housing vouchers, senior programming, youth jobs, access to counsel, and important grant programs. The Operating Budget docket has, therefore, been amended to include many of these priorities; to balance these investments, reallocations are proposed from a variety of line items, mainly targeting areas where departments have historically underspent. The investments and reallocations are summarized below, and are reflected in the revised Tax Order submitted with this report.

properties; and

(g) For any property located within a City Council District, residents of that same City Council District who meet all eligibility requirements shall receive priority consideration in the lottery process to the maximum extent permitted by applicable fair housing laws and regulations.

Section 5. Severability.

The provisions of this ordinance are severable and if any provision, or portion thereof, should be held to be unconstitutional or otherwise invalid by any court of competent jurisdiction, such unconstitutionality or invalidity shall not affect the remaining provisions, which remain in full force and effect.

CITY OF BOSTON

ORDER FOR A HEARING TO DISCUSS THE IMPACT OF ROAD RACES ON BASIC CITY SERVICES IN DISTRICT 2

WHEREAS: Running road races have become synonymous with the City of Boston's culture for generations. While, most notably, the world renowned Boston Marathon requires months of preparation for permits, public safety coordination, and road closures, there are many road races in support of worthwhile causes that take place each and every year in the neighborhoods of Boston and District 2 as well - including areas like South Boston, the South Boston Waterfront, and Back Bay among others; *and*

WHEREAS: Residents continue to express concerns on a lack of advanced notice before some races take place. Small businesses have also highlighted issues that a lack of sufficient community engagement and notification have affected their preparedness for staffing, the ability of employees and customers to navigate road closures, and changes to an already strained parking supply; *and*

WHEREAS: Effective coordination between the Department of Arts, Culture, Entertainment, Tourism, and Special Events with the Boston Transportation Department (BTD), Public Works, District Councilors, the Office of Neighborhood Services (ONS), the Boston Licensing Board, our first responders, state partners and relevant stakeholders is essential for providing uninterrupted basic city services, crowd control, traffic management, emergency response, overall event security, and neighborhood notification; *and*

WHEREAS: Ongoing concerns relating to neighborhood notification and the delivery of city services including trash pickup, street cleaning and parking among others, highlight the glaring need to review interdepartmental coordination. With dozens of road races taking place every year in the City of Boston, it is appropriate to discuss logistical planning and community outreach with pertinent city departments to ensure neighborhood awareness prior to these events, as well as public and pedestrian safety; *and*

WHEREAS: With the influx of visitors that road races bring to Boston, it's critical to evaluate best practices to continue to efficiently deliver basic city services, as well as sufficient communication and public awareness campaigns; *and*

That the appropriate Committee of the Boston City Council holds a hearing to discuss the impact of road races on basic city services in District 2. Representatives from the Office of Neighborhood Services, Boston Police, the Boston Transportation Department, and other relevant and interested parties shall be invited to testify.

ORDER FOR A HEARING TO DISCUSS EXPANDING URBAN TREE CANOPY IN THE NEIGHBORHOODS OF DISTRICT 2

WHEREAS, Having a healthy and resilient urban tree canopy is important to our environment and quality of life, as trees not only beautify our landscapes, but they also provide filters for pollutants, absorb excess stormwater runoff, provide shades during hot summers, and other environmental and public health benefits; *and*

WHEREAS, Residents across the city treasure the trees in their neighborhoods, and view the trees as an integral part of their community, and residents of District 2 have often advocated for more tree plantings in their neighborhoods, especially as it encompasses neighborhoods with low tree coverage, such as Chinatown, Downtown, and South Boston. As of 2019, South Boston only had 8% tree coverage, and a census tract in Chinatown only had 7%, while the city average was 27%; *and*

WHEREAS, According to the 2019-2024 Canopy Change Assessment released in March 2026 by The University of Vermont for Boston Parks and Recreation, 27.2% of Boston's land is covered by tree canopy. A majority of these trees are concentrated in the western part of the city in Jamaica Plain, West Roxbury, Roslinedale, and Hyde Park. District 2 has a low concentration of tree coverage between 1%-12%. A graph indicated that Central Boston and South Boston have the lowest tree canopy percentage across the city; *and*

WHEREAS, There are also increasing concerns about trees ruining the sidewalks with their roots, or when they are torn up by micro bursts from large storms. The City of Boston chooses the trees they plant based on hardiness and the ability to thrive in poor soil with limited water. It is critical that the City considers trees that will not cause the sidewalks to lift and crack, or be completely torn up in the case of a tree falling due to weather conditions; *and*

WHEREAS, The City of Boston encourages residents to report sidewalk issues relating to trees on the 3-1-1 app for the coordination of the Urban Forestry Division and the Public Works Department to examine the roots of the trees to address raised sidewalks, but there is no timeline on when the sidewalk will be restored*;* ***NOW, THEREFORE BE IT***

ORDERED: That the appropriate Committee of the Boston City Council holds a hearing to discuss expanding urban tree canopy in the neighborhoods of District 2. Representatives from the Parks Department, environmental organizations, as well as other relevant and interested parties shall be invited to attend.

CITY OF BOSTON

IN THE YEAR TWO THOUSAND TWENTY SIX

RESOLUTION IN SUPPORT OF A PROPOSED LOCAL OPTION FOR RENT STABILIZATION, HOUSING AFFORDABILITY, AND TENANT STABILITY

WHEREAS, Boston is in a housing crisis that is displacing residents from the neighborhoods they call home, with more than half of Boston renters cost-burdened by housing expenses; *and*

WHEREAS, In 2025, the Boston City Council voted 9-3 in support of the statewide rent control ballot question, reflecting the clear and urgent demand of Boston residents for meaningful tenant protections and large rent increases; *and*

WHEREAS, Over 62 percent of Massachusetts voters support rent stabilization policies, demonstrating broad consensus for reform across the Commonwealth; *and*

WHEREAS, Last week, the tenant advocacy coalition, Keep Massachusetts Home, announced a proposed compromise reached with several of the Boston area's largest real estate developers, showing collaboration between tenant advocates and the development community on solutions to the problems at hand; *and*

WHEREAS, The proposed compromise would create a local option rent stabilization framework, allowing cities and towns to vote to adopt a policy capping annual rent increases at 5 percent above inflation, up to 10 percent, with exemptions for new construction, owner-occupied units, and vacant units; *and*

WHEREAS, The proposed compromise provides a path forward that is locally controlled, equity focused, and able to protect our residents most vulnerable to displacement while preserving the City's ability to continue growing its housing supply; *and*

WHEREAS, This local option would eliminate the need for a lengthy, costly ballot question process that could potentially leave our state without any form of rent control. The State Legislature ought to act swiftly to move this option forward; *and*

WHEREAS, Boston would be among the first municipalities to adopt the local option rent stabilization authority, and this Council is committed to ensuring that any policy implemented is done so in a manner that prioritizes our residents most vulnerable to displacement; ***NOW, THEREFORE BE IT***

RESOLVED: That the Boston City Council supports the local option rent stabilization proposal, reaffirming its commitment to ensure that Boston remains a city where working

families, long-term residents, and people of all incomes can afford to live and thrive.

RESOLUTION IN SUPPORT OF BILL S. 1247 AN ACT CRIMINALIZING SEXUAL ASSAULT OF A PASSENGER BY A RIDESHARE OPERATOR

WHEREAS, Transportation Network Companies (TNCs), such as Uber and Lyft, provide ride-sharing services that are convenient and used by many to commute in Boston; *and*

WHEREAS, Recognizing that TNCs have become an integral part of our overall transportation system, residents have also expressed that this evolving industry continues to present serious concerns related to public safety**;** *and*

WHEREAS, In February 2025, a woman was allegedly sexually assaulted by her rideshare driver when travelling from an establishment in South Boston to her home. In 2018, a driver was charged with exposing himself to two women near Downtown Crossing. In 2015, another driver was convicted of aggravated rape, kidnapping, assault and battery**;** *and*

WHEREAS, According to reports by WCVB, a woman was allegedly raped by her Uber driver after she left a bar alone. The next day, her friends encouraged her to contact the Boston Area Rape Crisis Center, who guided her through her next steps. After obtaining a sexual assault test kit, she was told that there was not enough evidence to move the case to trial**;** *and*

WHEREAS, Prosecutors at the Suffolk County district attorney's Domestic and Sexual Violence Unit indicated that in order to move forward with a trial, they would have to prove that the rideshare driver knew that the victim was too intoxicated to give consent; *and*

WHEREAS, S. 1247 *An Act criminalizing sexual assault of a passenger by a rideshare operator* would effectively eliminate consent as a defense for a ride-share driver and make it illigal for a driver to have sex with a passenger. The bill treats ride-share drivers as people in a position of trust, similar to a police officer with a person in custody**;** *and*

WHEREAS, Incidents of sexual assault on rideshares are deeply disturbing and unsettling for residents across Boston. Ensuring the safety of all residents - especially young women - who use rideshares is critical. This bill would effectively provide an extra layer of protection for residents that utilize rideshares, especially those that are in vulnerable positions**;** *and*

NOW, THEREFORE BE IT ORDERED:

That the Boston City Council strongly supports the passage of S. 1247, *An Act criminalizing sexual assault of a passenger by a rideshare operator* in the State Legislature, and urges prompt action in the passage of this legislation.

CITY OF BOSTON

IN CITY COUNCIL

IN THE YEAR TWO THOUSAND TWENTY-SIX

RESOLUTION CALLING FOR LONG-TERM AND SUSTAINABLE PUBLIC INVESTMENT IN SCHOOL-YEAR YOUTH JOBS

WHEREAS, Year-round youth jobs during the summer and school year are critical core investments that the City of Boston and communities must prioritize, just as the City provides public funding for schools, summer jobs, libraries, public health, housing, parks, and physical infrastructure*; and*

WHEREAS, Year-round youth jobs are foundational to young people's growth and leadership, and community leaders who are now adults became leaders because of jobs they had during both the summer and school year as youth*; and*

WHEREAS, Investing in school-year youth jobs has long-term positive outcomes for young people and the community far outweighing their cost, and cutting funding for school-year youth jobs would be financially irresponsible because of the long-term costs associated with the downstream consequences of defunding youth jobs that will need to be addressed, such as housing, food, health, and policing*; and*

WHEREAS, School-year jobs allow young people to support themselves, their families, the city, and the economy for 12 months, not just two months a year*; and*

WHEREAS, School-year jobs are critical for sustaining organizations which depend on youth to lead community programs during the school year, and to receive training during the school year to lead summer programming, such as afterschool and summer programs for young children*; and*

WHEREAS, A City budget is a moral document that reflects our priorities as a City, and investing in young people is a priority*; and*

WHEREAS, The City of Boston has invested funds from the City operating budget into school-year youth jobs since at least 2006, reaching a high of 2,531 school-year slots in 2023-2024*; and*

WHEREAS, Young people have organized for two decades for investment in jobs that last all year-round, including jobs for immigrant youth, that pay more than minimum wage, and jobs last 12 months out of the year*; and*

WHEREAS, Boston should strive for a major expansion of and investment in school-year jobs with public funding as a foundation, similar to the Mayor's Summer Jobs Guarantee, which relies on public funding through the City operating budget providing about 50% of the jobs, and where private placements and funding supplement but do not replace public investment*; and*

WHEREAS, The City operating budget funded at least $5.5 million for 1,804 school-year job slots at 153 worksites, including 983 jobs at 96 community-based sites, 317 jobs at 26 Boston Centers for Youth and Families community centers, 35 jobs at Boston Housing Authority, and 43 jobs at the Boston Student Advisory Council*; and*

WHEREAS, Community groups and City agencies had capacity to host 5,154 school-year jobs in the 2025-2026 school year but only received City funding for 1,804 jobs*; and*

WHEREAS, While three organizations that received 2025-2026 SuccessLink school-year jobs funding announced they will hire 475 young people, about 150 community-based organizations and City programs have no money committed to replace the approximately 1,600 jobs they hosted previously using City funds*; and*

WHEREAS, The amount of City funding and the number of City-funded jobs can be clearly measured and used as accountability measures, while it is difficult to clearly measure private placements and funding to know whether jobs are increasing or counting jobs that existed previously*; and*

WHEREAS, Beyond three organizations committing to hiring 475 young people, no job placements or clear dollar amounts for private funding have been announced for next school year*;* ***THEREFORE BE IT***

RESOLVED, That the Boston City Council supports and values young people and declares that youth jobs deserve to be fully funded in the budget, calls for continuing strong public investment from the City operating budget in school-year youth jobs as an

area that is core to public infrastructure and the wellbeing of the city, and envisions a City-funded year-round youth jobs programs that thrives and expands for the next 20 years and beyond*; **AND BE IT FURTHER***

***RESOLVED*,** That the Boston City Council calls for any plans for private placements and/or funding for school-year jobs to be in addition to, not to replace, City funding for youth jobs, and for these private funding plans to include clear and specific dollar goals for fundraising and clear measurements that accurately track jobs from year to year.
