CITY OF BOSTON IN CITY COUNCIL

AN ORDER REGARDING A TEXT AMENDMENT TO THE BOSTON ZONING CODE WITH RESPECT TO PARKING MINIMUMS FOR AFFORDABLE HOUSING

WHEREAS: The City of Boston confronts an affordable housing crisis, with 49.6% of Boston area renters “rent-burdened” by devoting more than 30% of their income to housing costs, more than 50,000 families on the waiting list for a Boston Housing Authority public housing unit, and far too many homeless families in shelter; *and*

WHEREAS: A number of recent efforts have either prevented the construction of affordable housing or added considerable delay and expense to efforts to build affordable housing in the City of Boston by objecting to the issuance of a variance to the off-street parking minimums required by the Boston Zoning Code; *and*

WHEREAS: These objections are being raised both at the Zoning Board of Appeals and in courts of law, most recently in regard to proposed projects at 3377 Washington St., 3371 Washington St., and 37 Wales St.; *and*

WHEREAS: Such efforts are too often a cynical ploy to extract concessions for private interests or to frustrate a critical public need for more affordable housing for the sake of those private interests, at the expense of the most vulnerable members of our society; *and*

WHEREAS: The State’s recently-passed Housing Choice law includes a provision which will go some way towards reducing certain frivolous lawsuits against housing developments by requiring filers to post a significant bond, but the opportunity for such lawsuits could be most effectively reduced by altering the provisions of the Boston Zoning Code most often being used as their pretext; *and*

WHEREAS: The “Perfect Fit Parking Initiative: Phase II Report” published by the Metropolitan Area Planning Council in July 2019 found that the parking built as part of multifamily housing development across Boston and the region is going largely underutilized; *and*

WHEREAS: Every parking space built or acquired for an entirely affordable housing development diminishes the funds available for additional affordable housing units; *and*

WHEREAS: Affordable housing built in the City of Boston is typically accessible by mass transit, whether by bus, subway, or light rail, and transit-oriented development without parking is critical to meeting Boston’s climate goals; *and*

WHEREAS: Our first duty is to build a city for people, not for the storage of vehicles; *NOW THEREFORE BE IT*

ORDERED: That the Boston City Council, by and through Councilors Kenzie Bok and Matt O’Malley, submits a petition to amend the text of the Boston Zoning Code.

ORDER FOR A HEARING TO DISCUSS INVESTMENTS IN ELECTRIC VEHICLE CHARGING INFRASTRUCTURE & ELECTRIFYING THE CITY OF BOSTON'S VEHICLE FLEET

- WHEREAS:** Climate change is increasing the frequency of extreme temperature events, intense precipitation, and cyclones; and contributing to rising sea levels that we have witnessed in recent years in the City of Boston; *and*
- WHEREAS:** In order to slow the progress of climate change, the City of Boston has committed to becoming carbon neutral by 2050. Transportation accounts for nearly a third of Boston's total GHG emissions, 65 percent of which comes from personal vehicles; *and*
- WHEREAS:** To reach carbon neutrality, the City seeks to incentivize the use of zero-emission vehicles, ensuring that 23 percent of new car purchases in the City are electric vehicles by 2025, and that every household is within a 10-minute walk of an EV car share facility or a publicly accessible charging station by 2030; *and*
- WHEREAS:** The City of Boston not only intends to encourage the adoption of personal EVs, but is adopting EVs to replace its own municipal fleet. Under the City's Electric Vehicle Readiness Policy, all vehicles purchased for the Central Fleet must be EVs or zero emission vehicles (ZEV), or best in class if an appropriate ZEV is not available, with the goal of having a fully emissions free fleet by 2060; *and*
- WHEREAS:** The available charging infrastructure does not meet current demand and is insufficient to further encourage a transition to EVs. As of 2019, there were 658 Level 2 and 51 Direct Current Fast Charging (DCFC) publicly accessible chargers within Boston, the equivalent of one charger for every 1,000 residents; *and*
- WHEREAS:** To address this shortage, the City of Boston mandated in 2020 that development projects that require the Boston Transportation Department's TAPA approval and/or the Article 80 Large Project Review must equip 25 percent of their total parking spaces to be Electric Vehicle Supply Equipment (EVSE)-Installed and the remaining 75 percent of the total spaces to be EV-Ready; *and*
- WHEREAS:** Aside from building EV charging stations at private developments, the city should also discuss and provide an update regarding expansion of EV infrastructure at

facilities such as at our BCYF centers, Boston Public School parking lots, and other municipal buildings & parking lots; *and*

WHEREAS: In the most recent bipartisan infrastructure bill by the Biden Administration, there is a proposed \$7.5 billion in funding to build EV charging stations across the country, which presents an unprecedented opportunity for our city to expand our EV infrastructure; *and*

NOW THEREFORE BE IT ORDERED:

That the appropriate Committee of the Boston City Council holds a hearing to discuss measures to further invest in EV infrastructure. Representatives from the Boston Planning and Development Agency, Boston Transportation Department, the Office of Neighborhood Services, as well as other relevant and interested parties shall be invited to attend.

WHEREAS: The emergency housing process is often long and bureaucratic, and reimagining the application and approval approach could go a long way in supporting residents in need of emergency housing due to community-based violence; *and*

WHEREAS: A process to reimagine the application and approval process for emergency housing could include a review of the amount of 'proof' of trauma required and a reduction to the number of officials currently required to read and approve each application; *and*

WHEREAS: The Department of Housing and Urban Development provides a Public Housing Occupancy Guidebook to assist public housing agencies (PHAs) and outlines that a transfer may be used to: Alleviate a verified medical condition of a life-threatening nature; Alleviate a threat assessed by a law enforcement professional; or Protect members of the household from criminal activity at the property or in the neighborhood; *and*

WHEREAS: There is a large disparity in resources provided to residents experiencing displacement resulting from community violence or a broader definition of violence and transitional resources available to homeless or recovering populations are extensive, with most resources for violence centering on domestic violence survivors; *and*

WHEREAS: Currently our city's service providers working to support victims of violence and their families, including our hospitals and community-based organizations like the

Peace Institute, work urgently to secure emergency housing on a case-by-case basis with the City's Department of Neighborhood Development and housing service providers; *and*

WHEREAS: In addition to the challenge of funding the city is facing the challenge of low to non-existent housing inventory particularly because we do not set aside housing or have community-based violence qualify for prioritization; ***NOW THEREFORE BE IT***
