### ***Information Received at Hearing***

The Committee held a public hearing on Dockets #1474-1475 on Monday, September 25, 2023. The Committee was joined by Lou Mandarin, Senior Advisor for Labor, and Jim Williamson, Budget Director for the City of Boston all of whom provided testimony on behalf of the Administration.

Mr. Williamson stated that Docket #1474 reduces the FY24 appropriation for the Reserve for Collective Bargaining by \$27,357,626 and transfers these funds to the Boston Fire Department (BFD). Docket #1475 authorizes funding to cover the FY24 cost contained within the collective bargaining agreements between the City of Boston and the International Association of Firefighters (IAFF), Local 718.

Mr. Williamson stated that the City's FY24 budget included \$76.2 million in aggregate to collective bargaining reserves. Since July 2023, the City has passed two collective bargaining supplementals, drawing from the collective bargaining reserve about \$572,000. If these dockets are passed the Reserve for Collective Bargaining will total about \$48.2 million.

Mr. Mandarin stated that this contract is retroactive beginning in July 2021 and will last until June 2024. The City will reopen negotiations with Local 718 this Spring to finalize a new three year contract. Other than wage increases, there were language changes which modified hours of work and overtime, officer and rank coverage, and sick leave which would allow more flexibility for fire fighters when they take leave from work. He added that these negotiations took place over the course of seven months.

The Committee heard public testimony from Sam Dillon, President of Local 718, who expressed the union's support for this contract.

The Committee also discussed various topics including language changes related to parental leave, diversifying BFD personnel, the health and safety of Boston Fire Fighters, military leave reform, the need for the funding of Car 5, constructing a fire station in Charlestown, and creating positions in BFD that specialize in responding to lab-specific emergencies.

***Committee Chair Recommended Action***

As Chair of the Committee on City Services and Innovation Technology, I recommend moving the listed dockets from the Committee to the full Council for discussion and formal action. At that time, my recommendation to the full Council will be that the matters **OUGHT TO PASS**.
